

Amerigel Post-Op Surgical Kit

- **What** is the Amerigel Post-Op Surgical Kit?
 - The Amerigel Post-Op Surgical Kit is a packaged all-in-one kit containing all the necessary post operative treatment care to be used at home after an in-office procedure, or to treat an ulcer or wound.
- **Who** can benefit from the Amerigel Post-Op Surgical Kit?
 - The Amerigel Post-Op Surgical Kit provides convenient treatment for numerous post operative patients, such as those patients with wound or ulcer debridement, wart removal, and ingrown toenails procedures.
- **How** does the Amerigel Post-Op Surgical Kit work?
 - The Amerigel Post-Op Surgical Kit maintains a moist wound environment which is necessary for proper wound healing.
 - The kit contains a broad range of antimicrobial and antifungal agents that provide a barrier at the wound site to help fight infection.
 - The kit can reduce healing time by up to 20-50%, and can reduce post operative complications.
 - The kit eliminates the need for daily soaking and reduces treatment time.
- **How** do I use the Amerigel Post-Op Surgical Kit?
 - The Amerigel Post-Op Surgical Kit can be used in the comfort of your home.
 - Cleanse wound thoroughly with AmeriGel Wound wash and gently blot dry with gauze. Discard gauze.
 - Apply a small amount of AmeriGel Wound Dressing to the wound site.
 - Apply 1 fabric bandage across the nail, wrapping around the tip of the toe (for ingrown toenail procedures).
 - Repeat daily for 2 weeks unless otherwise directed by a physician.
- **How much** is the Amerigel Post-Op Surgical Kit?
 - One Amerigel Post-Op Surgical Kit is \$35.35.
- **Additional Information** on the Amerigel Post-Op Surgical Kit:
 - Each kit contains a 30 day supply of continuous post operative care.
 - Each kit contains 1 1 oz. tube of AmeriGel Wound Dressing, 1 4 oz. container of Amerigel Wound Wash, 30 1"X3" latex-free fabric bandages, and 30 2"X2" non-woven gauze pads.
 - Each item in the Amerigel post op kit can be purchased individually if needed.
