### What is toenail fungus?

Onychomycosis, or toenail fungus, is an infection that occurs when there is an opening within or under the nail plate allowing fungus to enter the body. Toenail fungus is a very common problem we successfully treat all the time!

### What's included?

- 3 personalized consultations with Dr. Lockwood to review your treatment plan
- 12 laser treatments scheduled every four weeks
- A Welcome Package to get you started
- Refills for all topical medications

### CLEAR NAILS ARE IN YOUR FUTURE

### Total Investment

- Initial investment of \$399 for the first month (includes admin fee!)
- Followed by \$199 for each subsequent month
